

# We are Hiring!

## Emergency Service Fleet - Mechanic

West County EMS & Fire Protection District is looking to add a Mechanic to our team! This individual would be responsible for providing routine maintenance and repairs to our full fleet of fire apparatus, ambulances, staff vehicles and tools.

### Industry-Competitive Salary

This 40-hour work week position does allow the opportunity for overtime

#### JOB REQUIREMENTS:

- ◇ Twenty-one (21) years of age
- ◇ Minimum 5 years verifiable experience in Heavy Diesel Truck and/or Heavy Fire Apparatus maintenance preferred (EVT certifications preferred, ASE Medium-Heavy Certifications bonus)
- ◇ Experience in diagnosing, servicing, and repairing heavy duty diesel engine emissions systems, including EGR, SCR and DPF systems and associated component servicing
- ◇ Experience in diagnosing, servicing, and testing fire pump systems.
- ◇ Experience in diagnosing, servicing, repairing and maintaining heavy duty vehicle driveline, axle and air braking systems
- ◇ Experience in diagnosing, servicing, properly repairing and maintaining automotive-type electrical systems
- ◇ Experience in successful use of drills, grinders, oxy-acetylene torches and wire-feed welders as necessary to functionally repair steel framing, bracketry and other similar components in order to maintain serviceability of District emergency vehicles
- ◇ Operating, servicing, and maintaining aerial ladders.
- ◇ Experience working out of a service truck and maintaining organized tools and supplies.

#### BENEFITS:

- ◇ District paid medical, dental and vision insurance for employee and family
- ◇ Eligible for District funded retirement benefits including pension and 457 matching program
- ◇ Paid holidays off
- ◇ Uniform allowance along with all required tools and personal protection equipment
